

THE PLACEMENT CELL NEWSLETTER

FEBRUARY 2026

VOLUME VII

FEBRUARY REPORT

February was an eventful month for the Placement Cell in many ways. It was dynamic in terms of achieving success and reaching milestones that the Cell aims to accomplish in the near future. With a clear sense of purpose and focus, the Placement Cell continued working diligently to secure the best opportunities to support and enhance the corporate journeys of our students.

The first instalment of the month brought encouraging news, as our efforts led to the successful recruitment of over **12 students** for senior finance and accounting positions at **NTT Data**. Additionally, the global fast-food chain **McDonald's** also initiated its recruitment process. Furthermore, **Accenture** onboarded 9 students for a customer support profile. These placements demonstrate the consistent efforts of the Cell to improve student-corporate relations.

Alongside these developments on the placement front, the Cell has also been advancing preparations for Converge, the annual internship fair designed to bring together the excellence of the corporate world and aspirational corporate joiners. This is the 10th edition of our annual internship fair. The Cell has been working hard to make this milestone edition the best yet.

Overall, February was a month of growth, progress, and promising opportunities for The Placement Cell. With successful recruitment drives and preparations for the landmark tenth edition of Converge, the Cell continues to strengthen its commitment to bridging the gap between academia and industry. Moving forward, the Placement Cell remains dedicated to expanding its network, creating more opportunities, and supporting students as they embark on their professional journeys.

A GLIMPSE
